COSMETIC WARRANTY REPAIR

Small scratches, scuffs and dents are not only unsightly, but have a negative effect on the value of your car. In the past, cars in need of cosmetic repair would have been sent to a conventional body shop, meaning that you would be without your car while the repair took place and potentially the cost of a large bill.

Thankfully many small scratches, scuffs and dents can be fixed using Cosmetic Warranty Repair technology.

Cosmetic Warranty Repair will cover you for 6 incidents, with a maximum of £500 per claim, with a maximum benefit of £3,000.

WHAT IS COSMETIC WARRANTY REPAIR

The Cosmetic Warranty Repair concept was originally created to offer the motor industry a fast, cost effective solution to assist in the cosmetic repair of used vehicles.

Cosmetic Warranty Repair Insurance now lets you take advantage

of this new solution to ensure your vehicle looks as good as new by repairing those minor little bumps and scratches as they happen. What's more, Cosmetic Warranty Repair Insurance will pick these costs up for a full 3 years!
